INCREASE YOUR SALES BY 15-20% IN THE NEXT 12 MONTHS

That's a bold statement, right? Here's another one - as of 2020, our company has produced in excess of \$205 million in sales for our clients.

JRP (also known as Jim Rohn Process), is a sales execution company. Our expertise is in developing and closing new, profitable business for your company.

We have tremendous knowledge of multiple industries and verticals and specialize in niche markets. We focus on identifying the right companies and true decision makers, then qualifying them to ensure they are an ideal prospect for your business. We then sell them on your behalf in a very strategic and consultative, yet influential way.

We are not a coaching company, consulting company, repping firm, telemarketing company or a mere lead-generation company.

If we decide to meet with your company, during this mutual interview process, we will provide you with specific references (names, phone numbers and email addresses) of our current clients for whom we've closed millions of dollars of profitable sales, and in whose pockets we've put hundreds of thousands of dollars.

Bottom line - We become your branded sales team, contacting prospects as though we are direct employees of your company. We develop proposals, obtain RFQs and close new, profitable business for your company!

MEASUREABLE RESULTS

AS OF 2020, JRP HAS GENERATED IN EXCESS OF \$205 MILLION IN SALES FOR OUR CLIENTS.

JRP is a ten-year-old company headquartered in Philadelphia, PA. Our fundamentals and core philosophies are deeply rooted in the work of world-renowned Jim Rohn. We develop new business for industrial manufacturing companies and bring a specific level of expertise to those having \$2 million to \$50 million in annual sales.

Many of our clients do not have the right sales force in place. Some may have even relied on manufacturer's representatives at one point in time or had inside/outside sales reps on their payrolls. As sales strategies continue to evolve, the JRP model has met the true needs of the market with the concept of outsourcing an expert sales force.

We are not manufacturer's reps, and we do not have a model such as ThomasNet, Salesgenie, or MFG. We are sales experts with an experienced team of industrial manufacturing sales professionals on staff. We understand how to talk effectively to engineers, plant managers and production managers, tie it back to purchasing and develop new business by getting RFQs and purchase orders in the door. We then continue to develop and nurture that new account into a longstanding customer for you.

We become a true sales arm for your company with the ability to generate profitable results.

HOW DO WE DO THIS?

1. JRP operates without any contract—only a month-to-month agreement.
2. We do not receive bonuses or commissions on the sales that we generate.
3. Our company is compensated by way of an all-inclusive, predetermined monthly fee that never changes. All of the work that we do is included in this fee so there are never any additional charges to our clients. Ever. This enables our clients to definitively budget for their sales and marketing expense.
4. The prospects and new customers that we obtain for our clients are theirs to keep.
5. All of our sales work is documented, so if at any time our clients decide they want to take over and bring their sales and marketing program back into their company, it is completely turned over to them.
6. Our company employs highly trained sales specialists. The average person in our company has at least 30 years of sales experience in the industrial manufacturing world, with added engineering expertise.

8

JRP is different from any type of company you have ever worked with before. In fact, our company is closed to the general public. We operate by eight specific core values, and if we don't feel there's an alignment with our core values and your company, you won't be eligible to work with us. We work with clients on an invitation-only basis and only with those in industries we don't currently represent.
